FOR INDIGENOUS COMMUNITIES
& BUDDA IN REDFACE

DO YOU OR YOUR PEEPS HAVE GREAT IDEAS THAT YOU WANT TO SHARE AT THIS GATHERING?

This is a call for presentations, workshops, or demonstrations related to innovative practice and integrative healing approaches to the treatment conundrums and systems issues we all face in attempting to provide mental, physical, behavioral and spiritual assistance to those we serve. This is a learning symposium with presentations and workshops that are open to all provider disciplines and fields of practice. Opportunities will be provided for interdisciplinary collaboration, consultation and networking. Selections will be made on the basis of creative approaches which enhance the opportunity for collaborative learning: creativity, innovation and thinking “outside of the box” are encouraged.

If interested, please submit a brief proposal outlining:

- Presentation topic
- At least 3 teaching/learning goals
- Presentation format (workshops limited to 90 min)
- Provider(s) names and credentials
- Collaborative presentations between providers and provider systems are encouraged
- Submission deadline is April 20th
- Should be PDF formatted and sent by email to: HealingWithWolves@wolfpackcts.org
